

Journal - Office of Legislative Counsel  
Tuesday - 4 June 1963

Page 2

4. (Unclassified - GLC) A group of Congressmen, headed by Representative John Brademas, had breakfast with the Director this morning. (See Memo for the Record for details.)

5. (Confidential - GLC) While Representative Brademas was here for the breakfast, I took the opportunity to discuss the upcoming trip which Representative Pucinski's Subcommittee of the House Science and Astronautics Committee will be making to the Soviet Union. The Subcommittee is interested in the development of data processing programs in Russia. I told Mr. Brademas that some of our people would like to brief the Subcommittee or some of its members before they leave and to talk with them again on their return. Mr. Brademas felt this would be helpful to the Subcommittee as well as to the Agency. He said he would talk to Mr. Pucinski and be in touch with us.
